On timing:
I think important to get TS in good shape asap, so would be good 20:04
to get engagement letter agreed today / tomorrow and on a call with
lawyers asap
If we want to hold 6,7,8 for SF meetings, we need to schedule 20:04
those early next week
Some fund / people ideas to bring in: redacted 20:07

(meet in SF), redacted On US trip maybe also meet founder of
Coinbase (could be an important supporter later on) & redacted
Rather than leaking anything to press, maybe take something out 20:08
of Elon's playbook and tweet / post something sufficiently cryptic to
get speculations going
